

Hello, Dear ones
Nice to meet you,
I'm Hodaya, 43.
A single mom, to Eden, 14.
We live in Hifa, North of Israel

For the last 15 years,
I've been dealing with
natural medicine and healing.
(Herbal plants, natural body care, workshops...)

I would like to thank you,
for the donation, I received lately..
And also,
To share the powerful experience,
that I have been through
thanks to the business training

By the time, I accepted the invitation,
to have the business training
I've been dealing with
A very complicated time in my life
I've been diagnosed,
as dealing with CPTSD.

So...
the presence of Shlomit Azar,
Was much more meaningful
than a Coach

Her ability to combine
practical perspective
and spiritual point of view,
and also,
her simple and creative business solutions-
Has always given me the right drive,

to do more, better,
...and feel good

Thank you so much for all of that,
and a big thank you,
to the association 'Yozmot Atid' -
For choosing exceptional women
to lead a better way,
for business owners in Israel.

Also had a course with the great Keren Ramot, few years ago

The big inspiration for me, is about:
Small choices can make someone bigger, and the world – better.. (:

Bless you all

Hoaya
